Meet Your Buyers On Their Terms
Who We Are

- Founded in our CEO’s dorm room in 2006
- HQ in Nashville with 500+ global team members
- Editorial Team of 150 researchers, analysts & experts
- Locations on 4 continents, speaking 12 languages
- US-based Call Centers with regional support globally
The Tech Buying Committee is Growing & Changing

- Tech buying committees consist of 6-10 people
- Tech researchers consume 10-13 pieces of content on their journey
- 50-60% of decision makers now sit outside of IT

Prospects are about 65 - 85% of the way through the buying process before they interact with sales

Each Technology Buying Journey is Unique

Content preferences & research habits vary among decision makers. That's what gives Technology buyers all the control over the journey.

- They decide what they consume, where and how they consume it
- They ALL **Start** with solving a business problem
- They ALL **Finish** with a decision to make a purchase or not
TechnologyAdvice is Your One Partner of Choice

“After testing lead generation with other vendors, we’ve seen some of our best results yet with Technology Advice. We’ve seen a 200% increase in opportunities created from top of funnel lead generation efforts while reducing overall program investments by 63%.”

JazzHR
Senior Marketing Manager & Marketing Specialist

“TA was able to get our programs live & delivered in full with a shortened timeline. We see much higher quality leads coming in than our channel averages. Opportunities generated from TA are closing at a higher rate than our company benchmark. They’ve quickly become one of our most valuable lead gen partners.”

PagerDuty
Senior Partner Marketing Manager

“Our program with TechnologyAdvice is among our top performing channels in terms of conversion to opportunity. I attribute that to the quality of the data they are sourcing from, and the qualifying process they follow.”

IBM + Eightbar
Associate Director of Integrated Planning
TechnologyAdvice gives marketers unprecedented opportunities to connect with digital engagers at scale, covering 140 countries in North America, LATAM, EMEA, and APAC.
